

Pure power for all professionals

Cutting-edge elegance, powerful, and dependable. With legendary ease-of-use: The new Casablanca Solitaire.

Casablanca Solitaire - Professionally to the future

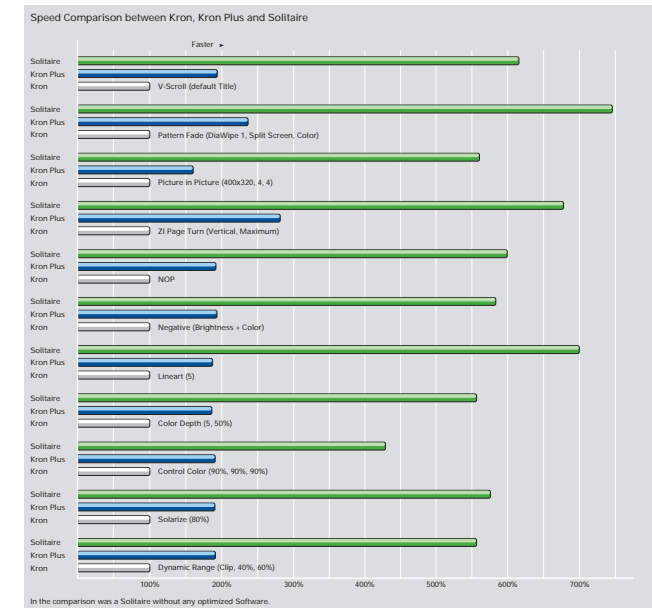

Casablanca Solitaire is the ultimate system for video editors. The new hardware architecture, coupled with the real time operating system VxWorks results in a huge leap in terms of editing speed. The ideal system for demanding users in the fields of professional editing, effects and audio. Casablanca Solitaire is available in two versions, differing in memory and hard-drive capacity. The features in overview:

- Modern hardware architecture with powerful 3Ghz processor, and 512 MB or 1 GB RAM.
- High capacity 160 GB or 300 GB hard-drive.
- HD-backup system for creating backups with "one button" solution. The backup drive has a capacity of 160 GB or 300 GB.
- Latest Pioneer DVD burner with 8x burning speed.
- Additional space for optional, separately available, mobile DV hard-drive from CityDisk or a second removable hard-drive*.
- Immediate status display of functions.
- High quality case design with glass front and intelligent opening mechanisms.
- Extremely low operating-noise level with WhisperEdit.
- Front inputs.
- Casablanca Smart Edit 3 incl. 3D Shapes.

- SMART RENDERING: Automatic background rendering of effects.
- DVD Arabesk 2 with DVD Dicon.
- Ready for the HDTV future: Casablanca Solitaire is equipped with the most modern hardware architecture and is ready for HDTV editing. The developed codecs are already capable of high resolution video streams.

Casablanca Solitaire: Convincing rendering speed results.

With SMART RENDERING, all effects are rendered in the background while you are working on a project.
